## Zone Control Benson Enviro 3

Main Wall Controller shown at actual size  
110 mm x 65 mm

Benson Enviro3 systems now have a new option - a blue lit Four Zone Wall Control.

An optional second controller enables you to control a second area, i.e. (living room and master bedroom; living room and kids area; or dining room and formal lounge).

This unique system enables you to change zones from either controller on a two controller option.

### Features

- High, medium, low and auto fan speeds
- Anti cycle compressor delays
- Winter coil pre-heat
- Anti frost up protection indoor
- Defrost control
- Automatic fan cycling fan during defrost
- Watch dog to reset MCU in event of power fluctuations
- Compressor protection in heating mode
- Fault diagnostic with Red LED indicator
- Auto re-start after power failure.

### Controller

Stylish All New Blue back lit controller - although its size is unobtrusive, it still has all the features you need:

- Easy to operate
- Compact size

### Timer

The Timer has 2, 5 and 7 day options giving full flexibility for domestic and commercial applications:

- 2 day (e.g. Saturday - Sunday)
- 5 day (e.g. Monday - Friday)
- 7 day (e.g. Monday - Sunday)

### Sensors

- Cooling mode: Main sensor is the one sensing
- Heating mode: wall controller is sensing with two controllers the averages the wall controller sensors.

### Zones

Up to 4 zones can be operated

Zone watch dog will always have one zone operational - even if all zones are turned off one zone will activate primary zone in system.
